

**SUPPORT CCGA'S
LEGACY GARDENER FILM PROJECT**

We believe gardeners' stories are everything.

Stories are our shared history and how we get to know each other. Legacy gardeners are the heart of what our gardens are. Learning and recording the personal histories of our senior garden leaders deepens our respect and appreciation for them and allows their wisdom to inspire even more people!

We launched the Legacy Gardeners Project in 2020 with our first two films highlighting the work of Ms. Erma Purnell of New Horizons Community Garden and Ms. Doretha Penn of Crystal's Peace Garden. In 2023, our goal is to learn about and record the personal histories of more of our senior garden leaders!
