Directed by Josh and Rebecca Tickell, *Common Ground* explores how people across the country are utilizing and supporting regenerative agriculture, highlighting concrete ways to fix a broken food system.

The film features celebrity actors, activists and philanthropists Rosario Dawson, Laura Dern, Donald Glover, Woody Harrelson and others alongside many farmers, ranchers, and scientists including Gabe Brown, Jonathan Lundgren, Mark Hyman, Leah Penniman, Ray Archuleta, and more. *Common Ground* is a sobering independent documentary investigating the often-toxic interconnections of farming and food systems - and providing hopeful, true examples of real change.

*Common Ground* is the highly anticipated sequel to the documentary *Kiss the Ground*.

Stay for refreshments after the movie and meet some of your local farmers! This is a free event co-hosted by The Land Conservancy of McHenry County and the Center for Agrarian Learning at MCC! Bring your friends!
