

## SPECIALTY GROWERS INTENSIVE

# Small Farm Equipment

## 2-wheel tractors, 4-wheel tractors, hand-tools ...and more!

Saturday and Sunday

November 9 and 10, 2024

9 a.m. –4:30 p.m. each day

McHenry County College, Crystal Lake, IL Room A213

\$285 includes catered lunches, demos, binder resources

Join us for this 2-day intensive workshop on the equipment and tools used in specialty crop production. We'll cover everything from field preparation, planting, cultivating, and harvesting, with a focus on growing annual vegetables and flowers. The weekend will include extensive hands-on demonstrations (outside and in our high tunnels), sessions on wash-pack equipment, purchasing/renting considerations, and more.

This workshop is led by specialists and farmers who have trialed many systems and will share their favorite machines and tools (and WHY). **Sam Oswald Tilton of Glacial Drift Enterprises** will lead this event, joined by **Tim Brown of Broadview Farm and Gardens** and **Morgan Snedden of Fox at the Fork**.
