

PLEASE LEND YOUR VOICE TO CHICAGO'S FIRST **Urban Agriculture Plan**

Over the next few years, Advocates for Urban Agriculture (AUA) and Chicago Community Gardeners Association (CCGA), in collaboration with partners throughout Chicago, will be focusing our efforts on co-creating an urban agriculture plan. As such, the purpose of this survey is to receive community feedback on what focus areas should be included in the urban agriculture plan.

This is an opportunity for you to have your voice heard.

Please stay tuned for our listening sessions
