SAFE AND SMART!

Food Safety Planning Post-Harvest Handling, & Scheduling Plantings for Community Food Systems

THERE'S LOTS TO LEARN!

University of Illinois Extension Local Food Systems and Small Farms educator Zack Grant will cover steps urban scale community food production sites can implement before and after food production.

The training will cover:

- food safety planning for small food producing sites
- how to handle produce once it's been harvested
- pre-season planning to prevent harvest waste and increase logistical ease for the end user.

This training will be tailored to the unique work Grace Seeds Ministry, through Share the Harvest, is conducting in Chicago.

Register Today!

When: Saturday, March 12, 2016

Where: First United Methodist Church of Oak Lawn, 100th and Central, Oak Lawn (<http://oaklawnchurch.org>)
