SECTION 3. Chapter 10-32 of the Municipal Code of Chicago is hereby amended by adding a new Section 10-32-055, as follows:

10-32-055 Managed native garden registry.

- (a) The Department of Planning and Development shall establish and maintain a registry of managed native gardens.
- (b) A managed native garden is a planned, intentional, and maintained planting of native plants.
- (c) Any person wishing to maintain a managed native garden on their property may register their property with the Department of Planning and Development. The managed native garden must be maintained in accordance with rules established by the Department. Managed native gardens in good standing on the registry shall not be subject to Section 7-28-120. Failure to maintain the managed native garden in accordance with this section and the rules may result in the Commissioner of Planning and Development removing the garden from the registry.
 - (d) To be eligible to be in the registry:
 - the managed native garden shall be on an occupied property.
 - (2) the managed native garden shall contain only plants native to the Chicago region.
 - (3) the managed native garden shall not have plants taller than ten inches within three feet of a public sidewalk or property line. Similarly, if a permit for a managed native garden in the parkway is acquired, any managed native garden in a parkway shall not have plants taller than ten inches.
 - (4) the plants within the garden will have been intentionally planted by seed or transplantation into the garden. Owners need to be able to identify the plants contained within the garden.
- (e) Nothing in this section shall be construed to allow the section to conflict with the Illinois Noxious Weed Law, 505 ILCS 100/1 et seq.

SECTION 4. This ordinance shall be in full force and effect following passage and approval.

RULES AND REGULATIONS FOR WEED CONTROL

City of Chicago Richard M. Daley Mayor

Michael J. Picardi Commissioner of Streets and Sanitation

> Suzanne Malec-McKenna Commissioner of Environment

WHEREAS, The City of Chicago's Commissioner of Streets and Sanitation and Commissioner of Environment have authority to adopt rules and regulations necessary or proper to accomplish the purposes of Section 7-28-120 of the Municipal Code of Chicago; and

WHEREAS, The City of Chicago promotes the use of native vegetation as a means to conserve water and to reduce carbon dioxide emissions; and

WHEREAS, While promoting the use of native vegetation, the City of Chicago wants to continue to require property owners and persons in control of property to manage and maintain the vegetation growing on their property; now, therefore,

BY AUTHORITY VESTED IN THE COMMISSIONER OF STREETS AND SANITATION AND THE COMMISSIONER OF ENVIRONMENT PURSUANT TO THE GENERAL PROVISIONS OF SECTION 7-28-010 AND SECTION 2-30-030 RESPECTIVELY, AND THE SPECIFIC PROVISIONS OF SECTION 7-28-120, THE FOLLOWING RULES AND REGULATIONS REGARDING WEED CONTROL ARE ADOPTED HEREIN.

By Order of the Commissioner:

Michael J. Picardi

Commissioner of Streets and Sanitation

Suzanne Malec-McKenna

Commissioner of Environment

CITY OF CHICAGO DEPARTMENT OF STREETS AND SANITATION and DEPARTMENT OF ENVIRONMENT

RULES AND REGULATIONS for WEED CONTROL

Section 7-28-120 Weeds—Penalty for violation—Abatement—Lien

- 1.0 Scope and Purpose. The purpose of these rules and regulations is to provide guidance on determining whether vegetation is a "weed(s)" within the meaning of Section 7-28-120 of the Municipal Code of Chicago, and as such is subject to the restrictions and abatement measures set forth in Section 7-128-120.
- **2.0 Definitions.** As used in Section 7-28-120 of the Municipal Code of Chicago and in these rules and regulations:
 - "Weed "or "weeds" means vegetation that is not managed or maintained by the person who owns or controls the property on which all such vegetation is located and which, on average, exceeds ten inches in height.
- **3.0 Fines and Abatement.** Any person who violates these rules and regulations shall be subject to the fine and abatement provisions set forth in Section 7-28-120.

§ 7-28-120. Weeds – Penalty for violation – Abatement – Lien.

Latest version.

- (a) Any person who owns or controls property within the city must cut or otherwise control all weeds on such property so that the average height of such weeds does not exceed ten inches. Any person who violates this subsection shall be subject to a fine of not less than \$600 nor more than \$1,200. Each day that such violation continues shall be considered a separate offense to which a separate fine shall apply.
- (b) All weeds which have not been cut or otherwise controlled, and which exceed an average height of ten inches, are hereby declared to be a public nuisance. If any person has been convicted of violating subsection (a) and has not cut or otherwise controlled any weeds as required by this section within ten days after the date of the conviction or finding of liability or judgement, , the city may cause any such weeds to be cut at any time. In such event, the person who owns or controls the property on which the weeds are situated shall be liable to the city for any and all costs and expenses incurred by the city in cutting the weeds, plus a penalty of up to three times the amount of the costs and expenses incurred by the city. Such monies may be recovered in an appropriate action instituted by the corporation counselor or in a proceeding initiated by the department of streets and sanitation or the department of health at the department of administrative hearings. The penalties imposed by this subsection shall be in addition to any other penalty provided by law.
- (c) The costs and expenses plus the amount of any applicable penalty incurred pursuant to subsection (b) of this section shall constitute a lien against the affected property if the city, or the person performing the service by authority of the city, in its or his own name, files a notice of lien in the office of the county recorder, or in the office of the registrar of titles if the property is registered under the Torrens System. The notice of lien shall consist of a sworn statement setting out:
- (1) A description of the real estate sufficient for identification thereof;
- (2) The amount of money representing the cost and expense incurred by the city or payable for the service plus the amount of any applicable penalty incurred pursuant to subsection (b) of this section;
- (3) The date or dates when the cost or expense was incurred by the city.

The notice of lien shall be filed within 60 days after the cost and expense and any applicable penalty is incurred; provided, however, that nothing in this section shall be construed to prohibit the City from collecting any amount of money owed to the City as set forth in the findings, decision and order of an administrative law officer or in a judgment entered by a court of competent jurisdiction or in any other manner permitted by law.

Upon payment, after notice of lien has been filed, of the amount of money representing the cost and expense incurred by the city, plus the amount of any applicable penalty incurred pursuant to subsection (b) of this section, the lien shall be released by the city for filing by the owner at the recorder of deeds.

Nothing in this section shall be construed to prevent the city from acting without notice to abate a nuisance under this section, where such nuisance poses an imminent threat to the public health, safety or welfare or in the event of any other emergency. Nor shall any provision of this section be construed to deny to any person any statutory or common law right to abate a nuisance, or to prevent the city from seeking any remedy that may be provided by law. If emergency abatement under this section is required, the city may recover any and all costs associated with such emergency abatement under Section 1-20-020

Shrubs		
6-12 ft	Bottlebrush Buckeye	Aesculus parviflora
3-12 ft	Oak Leaf Hydrangea	Hydrangea quercifolia

This list was adopted from the USEPA <u>Greenacres Program</u>'s Native Plant List for the Great Lakes region. This list is not comprehensive, however does include species that are commonly available at garden centers and nurseries and are relatively easy to grow. The list is provided for residents doing a modest first planting.

If you are interested in purchasing species native to the region, beyond those listed here, you are welcome and encouraged to apply for the rebate program. We will add new commonly purchased native species to this list over time. Please send suggestions or comments on this list to info@sustainablebackyards.org.

Species eligible for the <u>Chicago Sustainable Backyard Program</u> Native Plant Rebate are those perennials native to the Midwestern region and not listed on <u>Chicago's discouraged invasive species list</u>. Please note some eligible native shrubs are listed on the <u>City's Recommended Tree List</u>.
